

Dear Chummy

Just a short e-mail which will fail totally to convey how much I enjoyed my stay on Great Bear last week and also how impressed I was at the overall operation you run up there. The staff, the set up and the whole operation is unbelievable - even more so when you consider the logistics of operating in such a remote area. The whole thing is awesome. It was a week to remember. I'll be back, not certain whether it will be '09 or '10 but those lakers and the char on Tree are too good to ignore for long.

Please also pass my thanks onto Shane. I missed saying goodbye to him in the rush to get onto the plane on Saturday. He's a great camp manager and makes all the guests feel so at home and looked after. I've already thanked Craig Blackie directly but he added so much to the whole fishing experience. He's a really good guide.

Very many thanks again. Hope to be back with you all before too long.

Very best wishes

Tim
