

Dear Shane and Plummer's Staff:

After more than a decade of fishing throughout much of Canada, my longtime fishing partner Justin Wilson and I decided to tackle the "Bear". And this trip surely did not disappoint. We both had catches of personal best lake trout, including my 50 pounder, which was caught near Cabin Bay on a T-60 Flatfish. Many other large trout that we caught surely proved that the real giants are in abundance at Great Bear Lake.

Our guide, Brien "Captain" Morgan, was a true and consummate professional. He diligently worked, constantly keeping us on fish. His knowledge of the vast Dease Arm was impressive. Brien also graced us with some of his other talents during the week, which of course included the finest shore lunches we have ever tasted. He proved to be a fine musician, as his talents were on display during Thursday's weekly karaoke night. A song written by Brien and Ed entitled, "The Northland" was truly inspiring.

The meals were great, the cabin kept clean and tidy. The staff was friendly, professional, and always willing to accommodate with any special requests. Above all, a visit to this majestic place is something everyone needs to do once in their lifetime. The scenery and landscape are breathtaking and capture the imagination. After visiting Great Bear Lake Lodge I have come to one conclusion. It is in a class of its own. There is no other lodge or place in the world worthy of comparison. There is not one thing I could ask you to improve upon to make the trip any better.

Best Regards,
Seth Saarinen
